her and perform a special dance. The circle, the reverential respect, and the dance are repeated until the participants grow weary.

The Dance of the Viejitos is performed chiefly during the religious fiestas of December, especially in the town of Pátzcuaro, a short distance from the old imperial village of Tzintzuntzan (Fig. 1).

JUST AS THE BIRDS

Historical Comment

With their capital at Tzintzuntzan (Place of the Hummingbird), the vast Tarascan empire extended beyond the boundaries of the modern state of Michoacán and, next to the Aztec empire, was the largest political unit in Mexico. In spite of several accounts by early Spanish friars (Basalenque, 1886; Beaumont, 1932; Escobar, 1924; Mendieta, 1870; Rea, 1882), perhaps less is known about the origin and historical antecedents of the Tarascans than of any other major Mexican group.

Traditional Mexican hypotheses derive them from the northwest, suggesting close affinity to Nahuatl peoples. Philologically, this theory does not hold up; the Tarascan language has no family connection with other Mexican idioms and must be classified as an independent, isolated family (Mason, 1940). Recent archaeological work (Brand, 1944, Goggin, 1943, p. 57; Osborne, 1943) indicates a more southeasterly origin, possibly from the Mixteca of Oaxaca and Guerrero either down the east arm of the Balsas River valley or along the Pacific Coast and thence northward up the Balsas, Tepalcatepec, and Marqués rivers into central Michoacán (Fig. 2).

The Tarascans have never indulged in scholarly hypotheses. For them the answer to their early origins and travels unfolds in the legend of the birds. This legend supports the theory of a southern origin.
